

An Important Step to Mastering  
Structural Heart Therapy

# TAVI INDIA

THE BEST PRACTICES

📍 **Venue:-** Andaz, Aerocity, New Delhi

📅 **Date:-** 13<sup>th</sup> & 14<sup>th</sup> December 2025

## PCR Facilitators

Flavio Luciano Ribichini  
Italy

Pierre Deharo  
France

Ashok Seth  
India

Viveka Kumar  
India

## National Facilitators

Rajaram Anantharaman

Manik Chopra

Anuj Kapadiya

Rajneesh Kapoor

Asishkumar Mandalay

Maulik Parekh

## National Experts

Haresh Mehta

Sumanto Mukhopadhyay

Ajit Mullasari

Veena Nanjappa

Ravinder Singh Rao

Anmol Sonawane

## Media Drivers

Avinash Mani

Puneet Varma

Mitendra Singh Yadav

SESSION	TIME	TITLE & OBJECTIVES
<b>DAY 1</b>		
SESSION #1	13:00-14:30	<b>CT Analysis Prior TAVI</b> <ul style="list-style-type: none"> <li>- To learn step by step analysis of CT for a TAVI procedure</li> <li>- To predict complications &amp; modify procedure based on CT Analysis including coronary protection</li> <li>- To apply CT analysis for valve selection</li> </ul>
SESSION #2	14:30-15:30	<b>Large-bore access and closure</b> <ul style="list-style-type: none"> <li>- To understand best practices of femoral artery puncture including ultrasound guided puncture</li> <li>- To learn safe and secure closure of access site with variety of devices</li> <li>- To learn how to manage difficult access and complications</li> </ul>
SESSION #3	15:30 - 17:00	<b>Streamlining TAVI procedure</b> <ul style="list-style-type: none"> <li>- To understand step by step contemporary procedural practice for TAVI</li> <li>- To understand patient tailored THV selection for best outcomes</li> <li>- To learn about post procedural management of TAVI patients</li> </ul>
SESSION #4	17:30 - 19:00	<b>Teaching Cases by National Experts</b> <ul style="list-style-type: none"> <li>- Case Based Learning from national faculty about decision making, overcoming challenges and managing complications</li> </ul>
SESSION #5	19:00 - 19:30	<b>Recent trials of TAVI which change our practice</b> <ul style="list-style-type: none"> <li>- Late Breaking Trials from PCR London Valves &amp; EuroPCR 2025</li> </ul>

**DAY 2**

SESSION #1	09:00 - 10:00	<b>Coronary artery disease in TAVI candidates</b> <ul style="list-style-type: none"> <li>- To understand how to manage concomitant coronary artery disease in a patient with severe aortic valve stenosis</li> <li>- To understand timing of TAVI vs. coronary revascularization based on current evidence</li> <li>- To learn how to perform a PCI procedure in a patient with previous THV</li> </ul>
SESSION #2	10:00- 11:00	<b>Difficult femoral access</b> <ul style="list-style-type: none"> <li>- To understand difficult access site anatomy on CT analysis</li> <li>- To learn how to overcome challenges for a safe &amp; secure access</li> <li>- To learn about Adjunctive strategies for facilitating or bailout</li> </ul>
SESSION #3	11:00 - 12:30	<b>Bicuspid aortic valve</b> <ul style="list-style-type: none"> <li>- To learn valve sizing by CT analysis in BAV stenosis</li> <li>- To understand the valve selection in BAV stenosis</li> <li>- To understand procedural steps of TAVI in BAV stenosis for best outcomes</li> </ul>
SESSION #4	12:30 - 14:00	<b>Management of complications</b> <ul style="list-style-type: none"> <li>- To understand the reasons for valve dislodgement and its management</li> <li>- To learn how to predict and manage vascular complications</li> </ul>
